# Formulary Introduction

## FORMULARY

The Ambetter of New Hampshire Health Families Formulary, or Prescription Drug List, is a guide to available brand and generic drugs that are approved by the Food and Drug Administration (FDA) and covered through your prescription drug benefit. Generic drugs have the same active ingredients as their brand name counterparts and should be considered the first line of treatment. The FDA requires generics to be safe and work the same as brand name drugs. If there is no generic available, there may be more than one brand name drug to treat a condition. Preferred brand name drugs are listed on Tier 2 to help identify brand drugs that are clinically appropriate, safe, and cost-effective treatment options, if a generic medication on the formulary is not suitable for your condition.

Please note, the Formulary is not meant to be a complete list of the drugs covered under your prescription benefit. Not all dosage forms or strengths of a drug may be covered. This list is periodically reviewed and updated and may be subject to change. Drugs may be added or removed, or additional requirements may be added in order to approve continued usage of a specific drug.

Specific prescription benefit plan designs may not cover certain products or categories, regardless of their appearance in this document. Please check your benefits for coverage limitations and your share of cost for your drugs.

### Drug List Key:

Brand name drugs are listed in CAPS and generic drugs are lower case.

Drugs are covered under different copay tiers depending on your benefit:

**Tier 0** - No copayment for those drugs that are used for prevention and are mandated by the Affordable Care Act. Select oral contraceptives, vitamin D, folic acid for women of child bearing age, over-the-counter (OTC) aspirin, and smoking cessation products may be covered under this tier. Certain age limits may apply.

**Tier 1<sub>A</sub>** - Lowest copayment for select drugs that offer the greatest value compared to other drugs used to treat similar conditions. Select over-the-counter (OTC) drugs may be covered under this tier.

**Tier 1<sub>B</sub>** - Low copayment for those drugs that offer great value compared to other drugs used to treat similar conditions. Select over-the-counter (OTC) drugs may be covered under this tier.

**Tier 2** - Medium copayment covers brand name drugs that are generally more affordable, or may be preferred compared to other drugs to treat the same conditions.

**Tier 3** - High copayment covers higher cost brand name and non-preferred generic drugs. This tier may also cover non-specialty drugs that are not on the Prescription Drug List but approval has been granted for coverage.

**Tier 4** - **Highest copayment is for “specialty” drugs used to treat complex, chronic conditions that may require special handling, storage or clinical management.** Prescription drugs covered under the specialty tier may require fulfillment at a pharmacy that participates in Ambetter's "specialty" or "hemophilia" networks. For additional information on which pharmacies are within our "specialty" or "hemophilia" networks, please consult Ambetter website's pharmacy information section.

### Prior Authorization for Non-Formulary Drugs

To obtain prior authorization for a non-formulary drug, your provider must fill out the Prior Authorization form. Services will respond via fax or phone within 24 hours of receipt of all necessary information for urgent requests, and within 72 hours for non-urgent requests, unless state law requires faster response. If the request is disapproved, the notice of disapproval will contain a clear explanation of the specific reasons for disapproving the prior authorization request, or if the request was incomplete, the explanation will identify the missing material information that is necessary to complete the request.

### Formulary Abbreviations:

Abbreviation	Term	What it means
AL	Age Limit	Some drugs are only covered for certain ages.
QL	Quantity Limit	Some drugs are only covered for a certain amount.
PA	Prior Authorization	Your doctor must ask for approval from Ambetter before some drugs will be covered.
ST	Step Therapy	In some cases, you must first try certain drugs before Ambetter covers another drug for your medical condition. For example, if Drug A and Drug B both treat your medical condition, Ambetter may not cover Drug B unless you try Drug A first.
NF	Non-formulary	This product is not covered unless you or your provider request an exception. Alternative medications are listed next to non-covered product
RX/OTC	Prescription and OTC	These drugs are made in both prescription form and Over-the-counter (OTC) form.
SP	Specialty Drug	These products are Specialty Drugs that may have special fill requirements.
SF	Split Fill	Initially, certain medications may only be available in 15-day-supply increments until you are stabilized on the medication. After you have been taking the medication for 90 days, this restriction may no longer apply.

### Opioid Medications:

Medications identified on the formulary by "**New starts limited to 7 day supply**" allow up to two 7 day fills during any 28 day period and up to a total of 28 day non-consecutive supply in any 90 day period. This limit applies cumulatively to all opioid medications filled. For fills exceeding these limits, your providers may submit a Prior Authorization request.

Drug Name	Drug Tier	Requirements/Limits
<b>ADHD/ANTI-NARCOLEPSY/ANTI-OBESITY/ANOREXIANTS - Drugs to Treat ADHD, Sleep and Eating Disorders</b>		
<b>Amphetamines</b>		
<i>amphetamine sulfate TABS</i>	3	PA
