The Affordable Care Act

Key Objectives of the Affordable Care Act (ACA):

• Increase access to quality health insurance
• Improve affordability

Additional Parameters:

• Dependent coverage to age 26
• Pre-existing condition insurance plan (high risk pools)
• No lifetime maximum benefits
• Preventative care covered at 100%
• Insurer minimum loss ratio (80% for individual coverage)
Reform the commercial insurance market – Marketplace or Exchanges

- No more underwriting – guaranteed issue
- Minimum standards for coverage: benefits and cost sharing limits
- Subsidies for lower incomes (100% - 138% FPL)
Health Insurance Marketplace

Online marketplaces for purchasing health insurance

Potential members can:

• Register
• Determine eligibility for all health insurance programs (including Medicaid)
• Shop for plans
• Enroll in a plan
• Exchanges may be State-based or federally facilitated or State Partnership – **New Hampshire is a Federally Facilitated Marketplace**

*The Health Insurance Marketplace is the only way to purchase insurance AND receive subsidies.*
Subsidies come in the form of:

- Advanced Premium Tax Credits (APTC)
- Cost Share Reductions (CSR)

All Benefit Plans have cost shares in the form of copays, coinsurance and deductibles

- Some members will qualify for assistance with their cost shares based on their income level.
- This assistance would be paid directly from the Government to the member’s health plan.
